

## **Greek Jurists' Union 'e-Themis'**

### **“The Law as the foundation of a modern and growing economy”**

The 6th annual Conference of our Union “E- Themis” was successfully completed. It took place in Pylos of Messinia at the Costa Navarino Hotel and more than four hundred and fifty conference delegates attended it. The topics of the Conference were, among others, «Economic Development and Justice», «Technology & Economy», «Economy – Society & Justice», indicating the problems that prevent the gradual growth of our economy and also proposing interventions that could improve the current situation.

We hope that the latest book edition will enrich the related bibliography and contribute even more to the cultivation of the scientific dialogue.
